

# FIGURE

## Game Rules

ANDREY KOLUPAEV NATELA MANUSHAKIAN

## I. Game Overview

Find the answer of the question on the card! You need an intuition and observation to solve these questions. The player who takes a token of the answer gets one point, and the first player who earns five points first wins the game.

## II. Components

## III. Game Preparation

- 1 Spread all shape tokens on table and leave space for the cards in the center of shape tokens
- 2 Shuffle the cards then place them with the side of fingerprint icon facing up.
- 3 Decide which player will start first. The first player will take the two basic game dice and the cards from the card case. The dice for the easy game will not be used in the basic game, so put it back in the box.

# IV. How to play

Each round will proceed with **Find Answer** then **Check Answer**, repeat several rounds until the game ends.

## Find Answer

- 1 The first player rolls the dice. Players check the symbols shown on the dice. Each symbol indicates a question that should be solved in this round.

Find the figure that appears in the picture card only once

The figure that is not appeared in the picture

A combination of the most frequently appeared figure and shape

- 2 Shout "1, 2, 3", then take out one card from the pile and place it in the center of the table. At this point, the card should be placed face up, and make sure to not see the back of the card.

**Note** Grab the fingerprint icon and take out one card.

- 3 Simultaneously, all players should look at the picture on the card and find the answer to the question that dice represents. Each player quickly chooses and brings one shape token that they think to be the correct answer.

The shape tokens other players already took cannot be taken. Once a player touches a token, that token should be taken.

- 4 If all players have tokens, or if they no longer want to bring any, check the answers.

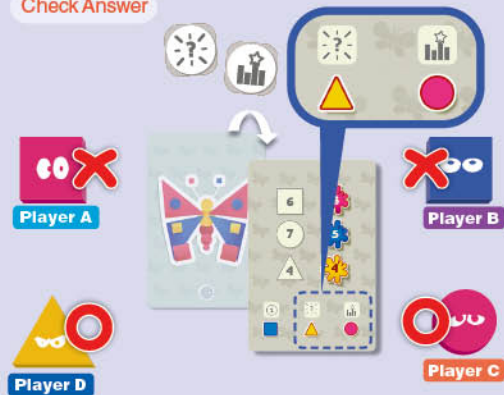

## Check Answer

- 1 Flip the card.
- 2 The answers for each question are shown at the bottom of the card back. Check the correct answer to the question of this round.
- 3 The player(s) with the token(s) matching the correct answer will receive one question card as a point.

- If there are different questions on two dice, there may be 2 correct answers. One person gets a card with a question and the other person gets a new card from the pile of cards.
- If the same question is shown on two dice, there is a maximum of 1 correct answer, and so one person will get 1 question card.

### Check Answer

The answers are  and . Each player with correct tokens get 1 card.

-   is not appeared in the picture
-   is most frequently appeared color and  is most frequently appeared shape. So  is the answer.

The person sitting on the left side of the first player becomes the next player and rolls the dice to start the next round.

## Game End

If a player earns five cards, the game ends immediately and the player wins.

If two players have acquired 5 cards at the same time, only those two players will proceed the final round.

In the final round, roll only one dice and reveal a card.

The player who gets the right answer token first wins the final round.

## Easy game variant

### Game Preparation

- 1 Prepare 54 cards, 1 card case, 1 easy game dice.
- 2 Choose the first player. The first player receives easy game dice and card cases with cards.

### How to play

- 1 The first player rolls a dice and reveal a card.
- 2 Quickly count the number of colors or shapes in the picture card that the dice showing. If a player knows the answer, shout out that number quickly.
- 3 If all players shouted the number as an answer, or if there is no player left, flip the card over and check the correct answer.

Once a player shouts a number, she/he cannot change it to another number.

- 4 The player with the correct answer will take the card.
- 5 The player sitting on the left side of the first player becomes the next player. Take the dice and the card case that contains the cards then proceed to the next round.
- 6 If a player collects five cards first, the player wins the game.

### Find Answer

### Check Answer

## ● Solo game rules ●

### Game Preparation

- 1 Prepare 1 basic game dice, 9 Shape tokens, 54 Cards.
- 2 Shuffle all cards and make a pile. Place it with the image side up in the center of the table.
- 3 Place all token on the table in a row.  
Tokens should be placed with the face side down.

### How to play

- 1 To start a game, roll the dice then check what the question is.
- 2 Find the answer in the card corresponding to the result of dice.
- 3 Flip the top card of the deck and check if your answer is right. If right, flip a token to show their face.
- 4 If your answer is wrong, choose one of the face-up tokens and flip it. (At first, there will be none.)
- 5 Put the flipped card back in the box, then roll the dice and so go on.
- 6 If you made all tokens showing their face up, you finish the game!
- 7 You may use a timer to track your best record.

#### Game Preparation

## ● 9 Figure Duel! ●

### Game Preparation

- 1 Prepare 1 basic game dice, 9 Shape tokens, 54 Cards, and timer.
- 2 Shuffle all cards and make a pile. Place it with the image side up in the between two players.
- 3 Each player receives 4 tokens, regardless of color and shape.
- 4 Place the remaining one token beside the pile.
- 5 Set a timer to 2 minutes, then the game begins by starting the timer.

### How to play

- 1 Set aside the top card of the pile and roll the dice.
  - 2 Both players look at the result of dice and the top card from the pile, then find the answer.
  - 3 If a player find the answer, shout out the answer and check.
  - 4 If right, you will get a token from the opponent, but if wrong, you should give a token to the opponent.
- Note** For the first card only, players take a token from the middle.
- 5 Set aside the top card of the pile then start a new round by rolling the dice. The player that collects all token wins the game. If there is no one who has all tokens when the timer ends, the player with more token wins.
