

Little Lady Bug

Game Rules

4+

2~4

10'

Read the Story Book

- Before starting the first game, read the story in front of this book with the child.
- Wear the plush of Leena on the child's hand.
- Whenever Leena receives a new dot in the story, place one or two patches of the corresponding color on Leena's back.
- Shall we go on an adventure into the forest with Leena, the dotless Ladybug?

I. Contents

1 Leena the Ladybug Plush

1 Color Die

12 colored patches

II. Setup

- Place all the colored patches randomly on the dotted space on the back of the book.
- The youngest player starts rolling the die.
- The first player whose die shows Leena wears the plush on the hand.
- Then, the player on their left rolls the die to start the game.

III. How to Play

- The game is played in clockwise order. On the player's turn, they roll the die.
- Depending on the result of die, perform one of the following actions:

1 If a color is shown, Leena gets a new dot!

- Place a colored patch on Leena's back, the color of the patch must match the result of the die.
- Then the player holding Leena should say "Thank you!" to the player who gave a new dot to Leena.

2 If Leena is shown, Leena flies to somewhere :

- If the player who rolled the die already has Leena in hand, then pass Leena to the player on their left.
- If the player who rolled the die does not have Leena, then they take Leena from the player having it and attach it to their own wrist.

Note If there is no patch left of the color required by the die-roll, then the player plays as if they had just rolled a Leena.

3 If Yellow Leena is shown :

You may choose either 'Move Leena' or 'Place the yellow-colored patch on Leena's back'.

- The player doesn't have Leena now. So they bring Leena with their hand as if the side with the Leena came out.
- The player has Leena in their hand. So, they put a yellow dot on Leena's back as if the side with the yellow color came out.

IV. Game End

When seven colored patches have been placed on Leena's back, so that there is no available spot left on Leena's back, the game ends immediately. The player having Leena on their wrist at that moment wins the game.
